For automated recycling collection once per week based on the collection schedule map on [page 11](#).

Need an additional cart?

To subscribe to additional cart service, please reach out to Utility Billing at (281) 652-1603.

When it comes to recycling...

More isn't always better!

**Reduce contamination by
only placing accepted
items in your recycle cart**

Recyclable

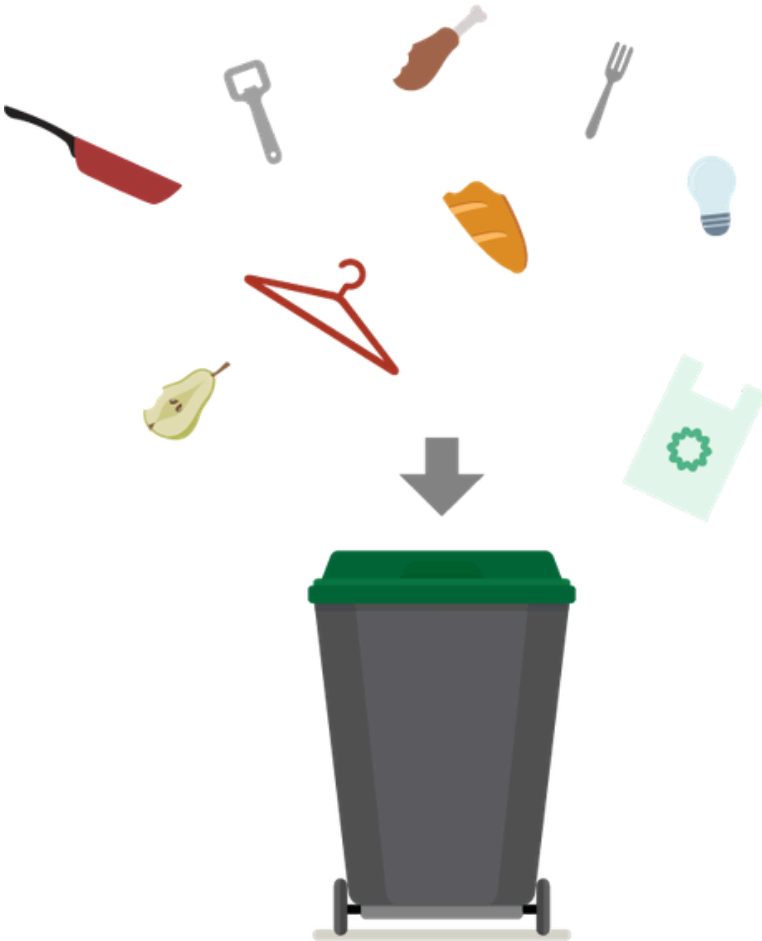

- Aluminum cans
- Plastic bottles (milk, water, detergent, shampoo, etc.)
- Glass bottles: clear, green, and brown
- Steel and tin cans
- Newspaper Mail
- Uncoated paperboard (cereal boxes, food boxes, snack boxes)
- Uncoated printing and office paper
- Uncoated corrugated cardboard

Non-Recyclable

- Plastic bags
- Ceramics
- Light bulbs
- Soiled paper (pizza boxes, paper plates and cups)
- Metal and glass cookware
- Food waste
- Coated cardboard
- Napkins, paper towels, paper plates, and plastic utensils

Household Hazardous Waste

Tips for Preparing your HHW for Dropoff at Stella Roberts Recycling Center (SRRC)

- Paint must be in original container. (i.e. no plastic food containers, milk, mason jars, etc.)
- Empty plastic paint cans will NOT be accepted; these can be put in your garbage.
- Paint with dried paint layers no longer accepted, these can be put in your garbage.

Transporting Hazardous Waste

- Make sure the containers are not leaking.
- Never mix hazardous materials in bags or containers. Leaks, spills, or reactions can occur; leaking materials won't be accepted at the recycling center.
- DO NOT leave ANY materials at the Recycling Center while the center is closed.

We are unable to accept Hazardous Materials from:

- Businesses
- Non-Profit Organizations
- City, County, or State Organizations / Departments
- Landlords

Household Hazardous Waste (HHW) is accepted on Friday (9:00AM - 3:00PM) and on Saturdays

Residents who do not receive a City of Pearland or WCID #1 (Dickinson) water bill, and who live in Brazoria Country, should check the SRRS website for current HHW rates.

Bulk and Brush Collection

Bulk, bundled brush, and bagged green waste will be collected together on the same collection day.

Acceptable Waste:

- Limit of two (2) cubic yard maximum bulk waste (approximately 6ft x 3ft x 3ft or 12-15 large outdoor bags)
- White goods, including washers/dryers/refrigerators/freezers (Note: appliances must have freon removed and be tagged by licensed contractor prior to placing on curb for collection)
- Small furniture, mattresses
- Brush tied in bundled (4 ft x 2 ft, individual branches no larger than 4 inches, and weighing no more than 40 pounds)
- Bagged green waste***

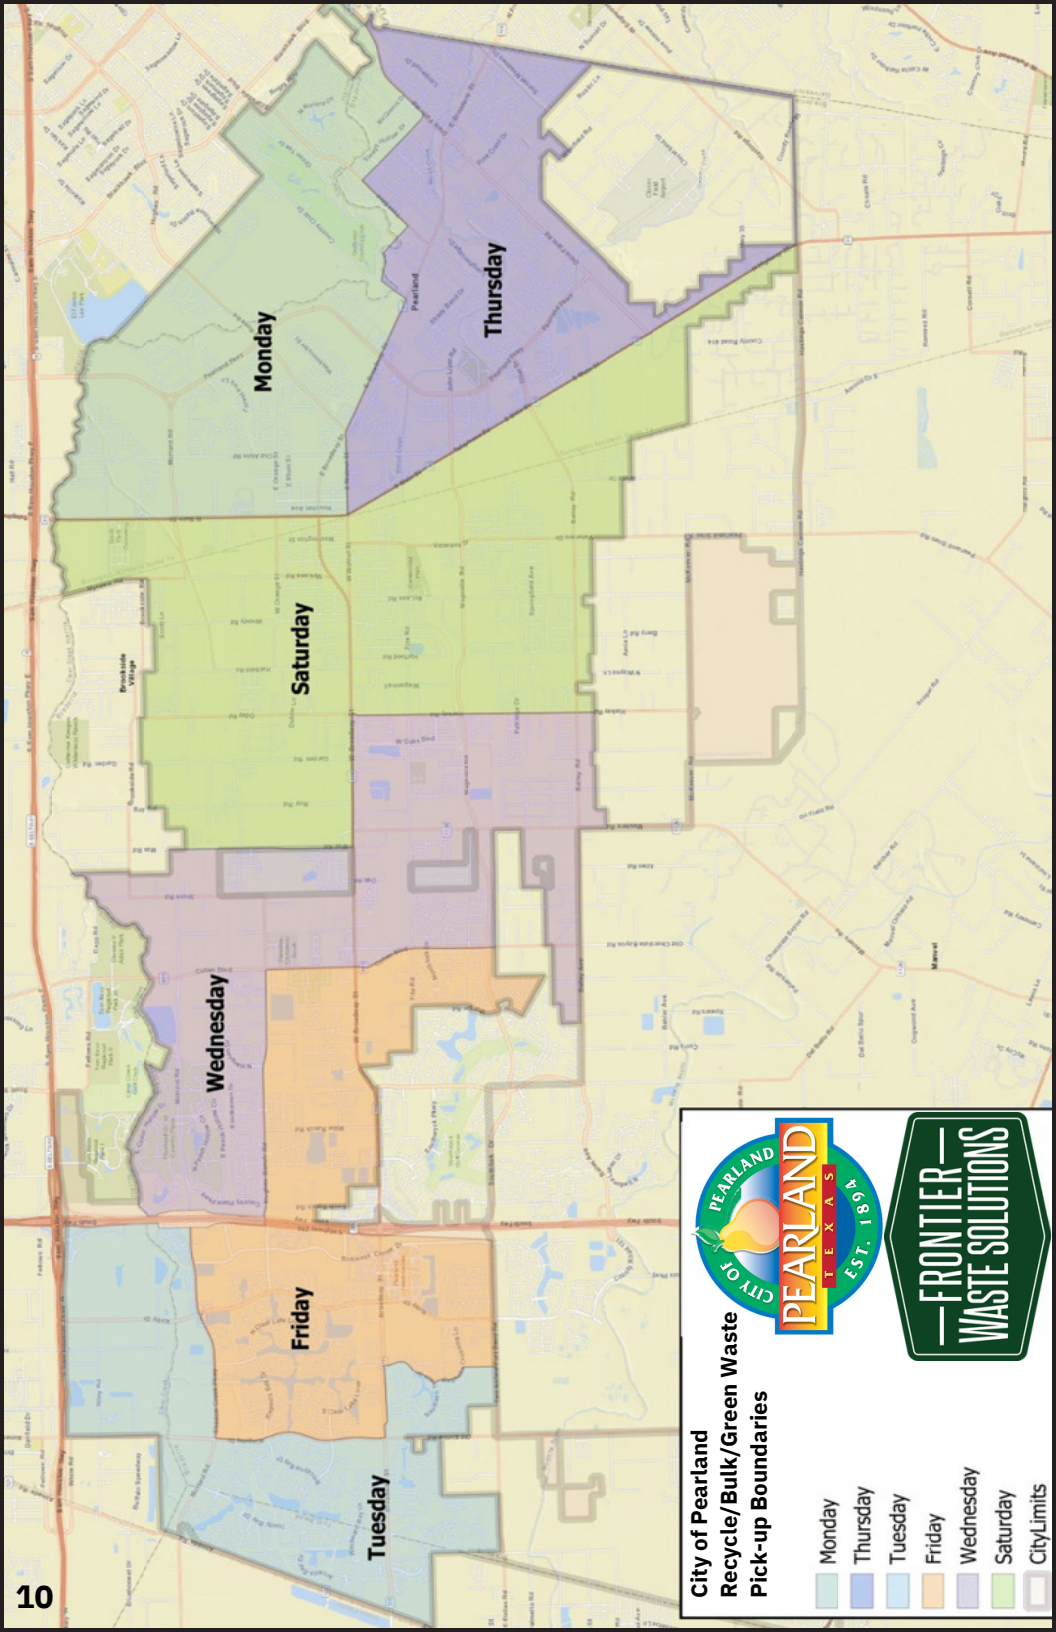

Unacceptable Waste - waste classified as Hazardous or Special Waste which may violate or endanger any person, party, permit, condition, legal or regulatory requirement or facilities, or present a danger to the health or safety of the public or employees.

These include, but not limited to:

- Construction and demolition debris
- Hazardous waste
- Medical waste
- Rocks, dirt, concrete, dimensional lumber, tree limbs larger than 4 inches in diameter and 48 inches in length

****Bagged green waste is preferred in the trash cart (dark gray with green lid); waste must completely fit in cart with lid closed.**

Pearland Cart Use Automated Service FAQ's

- **Will I have to pay for the cart?** No. The recycling and trash carts will be delivered without additional cost. The capacity of the new cart should be sufficient for the average household, considering it will be serviced twice per week, along with once per week recycle services. If the 95 gal cart is not sufficient, an additional cart may be requested for an additional monthly rate.
- **When is my service day?**
Check out the detailed service map on [pages 10 & 11](#). Residents can also check for service maps via Pearland's website (& entering your address), the [Frontier Waste App](#), or [Frontier's website](#).
- **What will happen if my service day falls on a holiday?** Frontier will observe three (3) holidays - New Year's Day, Thanksgiving, and Christmas Day. Scheduled service that falls on one of these two holidays will be serviced the next scheduled service day.
 - (Ex: Residents scheduled for trash service on Thanksgiving Thursday will be serviced on the following Monday. Scheduled recycling or bulk/green waste will be serviced the following Thursday.)
- **Is there a different truck for recycling?** Yes, the recycling truck will be a different unit, but both trucks will operate in the "Side-Load" mechanical arm function.
- **How should the carts be set out on my service days?** Carts should be placed with the lid opening facing the street and the wheel's closest to the curb. Each cart should be a minimum of 4ft from any objects including mailboxes, fire hydrants, cars, other carts, etc.

- **Does my trash need to be bagged?** To prevent any future problems, we ask that you bag any waste being placed in the gray and green Frontier Trash cart to help minimize loose trash/ debris on street during service, odors, and the need to wash carts frequently. Any accepted recycle can be placed loosely in the provided green and yellow Frontier Recycle cart.

- **Who do I call for service questions?** You can call Frontier Waste: 936-258-9035 – and be sure to mention you are a Pearland resident. You may also call the City of Pearland at 281- 652-1900.
- **Who do I call for billing or administrative inquiries?**
The City of Pearland: 281-652-1603.
- **What if I have more trash than can fit into the cart?** On occasion, residents may have more trash than usual. There are multiple options available to residents:
 - A pink tag can be purchased via the Frontier Waste App or by contacting Frontier. Once purchased, place tag on extra bags at curb and driver will collect.
 - Residents can arrange with Frontier for a special pick-up for debris more than two (2) yards for an additional cost. A Frontier representative will provide the cost estimate prior to servicing.
 - An additional cart can be obtained if trash volume is consistently more than what fits in cart.

- **What do I do with my personal trash cans that I have used for placing trash out (if applicable)?**

The City does not permit the use of personal trash cans for trash service. If using a personal trash can/cart that will no longer be used there are numerous environmental uses for the cart:

- Use as extra storage for tools, soil, mulch
- Rain barrel
- Animal feed storage
- DIY potato/carrot planter
- Collect recyclables prior to dumping in recycle cart
- Recycle old can; contact Frontier or Stella Roberts Recycling Center for more information
- Have a great recycling idea? Share it with Keep Pearland Beautiful at admin@mykpb.org
- If recycling is not an option, toss with heavy trash, and note "Please Discard"

- **What day are brush/bulk/green waste collected?**

Frontier will collect bulk/heavy trash and brush/green waste together, once a week. There will not be separate green waste collection. Refer to the maps on [pages 10 & 11](#) for route schedules. Additionally, residents can check route schedule, for all trash services, by visiting pearlandtx.gov/gis and typing in address or via the [Frontier Waste App](#) and [website](#). Refer to [page 9](#) for acceptable and unacceptable bulk and brush collection. Bagged green waste is accepted in trash cart if space allows and cart lid can close completely. Otherwise, green waste placed on curb shall be in clear bags or brown bags for collection, so the driver recognizes this as green waste.

NOTE: *green waste in dark bags placed on curb will not be serviced, as drivers will not open bags to determine contents.*

- **Are there any items that I can't get rid of through regular or bulky trash days?**

Unacceptable Wastes are those that are classified as Hazardous or Special Waste and might violate or endanger any person, party, permit, condition, legal or regulatory requirement, substantial damage to equipment or facilities, or present a danger to the health or safety of the public or employees. These include, but are not limited to:

- Hazardous Wastes- chemicals, corrosives, paint aerosols, lithium batteries, gasoline, diesel, waste oils, and similar solvents.
- Medical Wastes, used syringes, dead animals, solids or materials from irrigation or sewage lines.
- Construction and Demolition Debris, soils, sod, rock, dirt, sand, brick, concrete, excessive dimensional lumber from projects, any inert solid materials, drywall, shingles from roofing project, and other similar "C&D" project material.

- **What about household hazardous waste?** All HHW will go through the Stella Roberts Recycling Center located at 5800 Magnolia, Pearland. Refer to [pages 7 & 8](#) for additional information on HHW accepted, how to properly prepare for drop-off, and contact information.

- **Who do I contact for additional questions?**

- For **service questions**, contact Frontier Waste directly at 936.258.9035 (be certain to mention Pearland resident) or contact the City of Pearland Public Works at 281.652.1900. This includes: missed trash service, additional trash service needed, complaints regarding service, and environmental concerns.
- For billing or administrative questions, contact City of Pearland Water Billing at 281.652.1603. This includes: setting up new service account, questions regarding billing, and requests for additional carts.
- Additional information regarding solid waste services, visit the City of Pearland website at pearlandtx.gov/disposal-services or Frontier Waste at frontierwaste.com.
